HEALTH AND THE BUILT ENVIRONMENT

9:30am to 11:00am

October 11, Tuesday, 2016

	<p>The Executive Board is in the process of fine-tuning the Guidelines of Operation and Committee nomination documents. The Community Health Improvement Plan (CHIP) summit will take place on December 9, 2016.</p> <p><u>Guidelines of Operation</u></p> <p>The committee reviewed the description for the Health and Built Environment committee (Article X) in the Guidelines of Operation. The committee felt the necessity to revise the description and it will be improvised as necessary during the work plan session to realign it with the current initiatives of the committee.</p> <p><u>Strategic Planning Session</u></p> <p>Dr. Isaac Prilleltensky (Dean of the School of Education and Human Development and Vice Provost for Institutional Culture at the University of Miami) provided a Leadership and Community engagement training to the Executive board on September 29th. KH felt that the meeting was thought provoking and inspirational.</p> <p>KH- According to Dr. Prilleltensky, valuing the members and the value that the members has to offer is an important factor in the success of an organization. In addition, short-term and long-term goals need to be set. Furthermore, monitoring progress will facilitate in measuring the effectiveness and efficacy of the activities. Assigning members with certain activities will create a sense of urgency and responsibility among the members and it will aid in attaining the goals that are set by the committee.</p> <p>Fun For Wellness is an app that is designed to improve your well-being. This research-based program, which was developed by University of Miami, aims to promote well-being in six areas of life: Interpersonal, Community, Occupational, Physical, Psychological, and Economic. Free sign up will allow you to access the first part of the program and \$ 4.99 for the full access. The program is available in large scale for a reduced rate if any organization is interested in the program.</p>	<p>Ray will share the Dr. Dr. Isaac Prilleltensky’s presentation on “The Psychology and Ecology of Well-Being with the committee members.</p>

October 11, Tuesday, 2016

<p>Committee Work Plan</p>	<p>KH – The initiatives of the committee should be data driven. Informing and including the community/ key partners during the planning and implementation phase is a crucial aspect for the success of the committee. The HBE committee should be a platform for its members provide their expertise to assist in community projects and professional advancements.</p> <p>The committee work plan will be circulated among the members. The strategic planning session for the HBE committee is scheduled for November 8, 2016.</p>	<p>FDOH-MDC will assist in providing a facilitator for the strategic planning session.</p>
<p>Member Updates</p>	<p><u>Active Design Miami</u></p> <p>The Active Design Miami team is in the final stage of publishing the Active Design Guidelines and planning the official launch. The team has completed the ADM 101 video series and it will be uploaded to the ADM website. The evidence identification for all ADG strategies has been completed. The ADM team will be working with 10 municipalities to facilitate the adoption of Active Design Guidelines.</p> <p><u>Miami Dade Parks, Recreation and Open Spaces</u></p> <p>KB- The prototype (beta version) of the park 305 mobile web application was developed and the literature review for complete streets was completed during the month of September. Parks is working on logo /branding and the Park 305 technical assistance will be provided to the community in the upcoming months.</p> <p>SB- University of Miami is in the process of drafting the health messaging content that targets various age groups.</p> <p>SB invited the HBE committee members for the Masters of Public Health student presentations taking place at University of Miami Miller School of Medicine.</p>	<p>Dr. Brown will provide more information about the presentations to Ray.</p>

9:30am to 11:00am

October 11, Tuesday, 2016

	<p><u>Health Council of South Florida</u></p> <p>BB- Attend the Safer Streets Safer People Workshops and felt that it was informative and that it aided in bringing various key stakeholders to the table.</p> <p><u>The Health Foundation of South Florida</u></p> <p>Grants from “Partners in Places” and Health Foundation will be utilized to make Miami-Dade County Greener and Healthier for Residents by increasing tree canopy. The purpose of this initiative is to encourage residents to engage in physical activity by creating a conducive environment for physical activity. In addition, the trees will be planted throughout the County in order to provide shade to the transit users.</p> <p>The Health Foundation is conducting a rapid Health Impact assessment for the Underline project. The proposal of the Georgia Health Policy Center, Atlanta was chosen. As part of the HIA, the health impact on at least three indicators will be assessed. The health impact assessment will facilitate in increasing positive health outcomes by making necessary changes to the existing master plan.</p> <p><u>The South Florida Regional Council</u></p> <p>KH- The South Florida Regional Planning Council Brownfields Economic Redevelopment Initiative (BERI) recognizes Brownfields as an important community redevelopment tool and promotes the designation of sites with real or perceived contamination. The BERI portfolio includes loans for Brownfield remediation and supports the planning, assessment, cleanup and sustainable redevelopment of Brownfields by providing technical assistance and bringing municipal, private, and community stakeholders together to redress related issues. KH is also involved with updating the Comprehensive Economic Development strategy that focuses on economic resiliency for the region, which includes Broward, Miami-Dade and Monroe County.</p>
