CONSORTIUM FOR A HEALTHIER MIAMI-DADE

Healthy Baby Taskforce
 Friday, July 22, 2016
 11:30 am-12:30 am EST

<p>Approval of Minutes</p>	<p>Due to a late start, minutes were not reviewed.</p>	
<p>New Business</p>	<p>FDOH Miami-Dade held a Florida Healthy Baby Infant Mortality community Meeting on June 17, 2016. During the event, there were four breakout sessions: disease and chronic conditions, nutrition, maternal and child healthcare, and modifiable health risks. The breakout sessions played a vital role to the event as this is where the community and healthcare professions were able to come up with solutions to help reduce Miami-Dade County's health risks. With the information from the breakout sessions, DOH Miami-Dade was able to create an action plan.</p> <p>Activity three on the action plan focuses on increasing breastfeeding initiation and duration rate in Miami-Dade. The taskforce discussed action items, person responsible, deliverables, and key partners. The following are key action items:</p> <ol style="list-style-type: none"> 1. Access to breastfeeding education and information 2. Breastfeeding resources/ support 3. Social marketing 4. Support in the workplace 5. Support in early care and education 6. Maternal care practices. <p>Some deliverables include: Training, educational materials, outreach to mothers, professional support, breastfeeding aids, and promotion of breastfeeding. Important key partners include: WIC, Healthy Start Coalition, health clinics, Early Learning Coalition, and the Consortium for a Healthier Miami-Dade to list a few.</p>
