2020 Annual Community Health Improvement Plan Meeting

Acknowledgements

A diverse group of partners were represented at the 2020 Virtual Annual Community Health Improvement Plan Meeting. The information provided was well-received among those who attended. Seventy-five (75) individuals from thirty-one (31) community organizations registered to attend the event. A total of sixty-four (64) individuals logged into the meeting on the day of the event.

The Florida Department of Health in Miami-Dade County (DOH-Miami-Dade) is organized into several different program areas that focus on the surveillance, prevention, detection and treatment of health and environmental public health issues in the county. The major services provided by DOH-Miami-Dade align with the 10 Essential Public Health Services as determined by the National Centers for Disease Control and Prevention.

The following organizations registered for the event:

AIDS Healthcare Foundation (AHF)

All Star Media Solutions
Alliance for Aging, Inc.

American Heart Association

AvMed

The Children's Trust City of South Miami CLT Business Solutions

Dr. Rafael A. Peñalver Clinic

Dream-in-Green Epilepsy Florida

Familias Unidas International, Inc.

Florida Department of Children and Families

Florida Department of Health in Miami-Dade County

Florida International University Health Council of South Florida Homestead Hospital Hope For Miami

Humana

Hurley Health Resources, Inc.

Jackson Health System

Miami Chapter - National Association of Black Nurses

Miami-Dade Area Health Education Center, Inc.

Miami-Dade County Mayor's Office Miami-Dade County Public Schools

United Way of Miami-Dade

University of Florida University of Miami

University of Miami Health System

Urban Health Partnerships Urban Health Solutions West Kendall Baptist Hospital

Florida HEALTH Miami-Dade County

2020 Annual Community Health Improvement Plan Meeting

Overview

On Friday, October 30th, 2020 the Florida Department of Health in Miami-Dade County hosted the 2020 Virtual Annual Community Health Improvement Plan Meeting via the GoToMeeting platform. The purpose of the Community Meeting was to bring together a diverse mix of public health professionals, community members, state and local health officials, and community organizations to collaborate on prioritizing and addressing the needs of the community through the development of strategies and interventions. Attendees were able to provide input on the key health issues that affect Miami-Dade residents and their health.

Input from the Community Meeting is useful for assessing the Community Health Improvement Plan (CHIP) for Miami-Dade County. The CHIP is the county's five-year collaborative plan from 2019-2024 for developing policies and defining actions to target efforts that promote health. It is a local plan that examines the activities of our public health network and how they contribute to community health improvement. The six strategic health priority areas identified in the CHIP include: Health Equity, Access to Care, Chronic Disease, Maternal-Child Health, Injury, Safety & Violence, and Communicable Diseases and Emerging Threats.

The Community Meeting was designed to provide high-level, dynamic sessions that address the strategic public health priorities mentioned previously. Community members had the opportunity to discuss key public health issues impacting health and wellness in Miami-Dade County, and evaluate strategies and actions that have the potential to address those issues in innovative ways.

The meeting opened with an introductory statement from Karen Weller, Assistant Community Health Nursing Director, and a welcome greeting from Dr. Yesenia Villalta, the Health Officer of the Florida Department of Heath in Miami-Dade County. Staff members guided participants through interactive sections that explained the Mobilizing for Action through Partnerships and Planning (MAPP) process, provided updates on the state feedback, success stories, priority areas, and looked to identify targeted areas for improvement.

Dr. Valerie Turner moderated the Objective Deep Dive section, the centerpiece of the meeting. This section consisted of over 15 questions related to CHIP measures and ways to improve or address service gaps. Attendees were asked to provide input via PollEverywhere software, where their responses were displayed on the screen in real-time, with Dr. Turner providing commentary. The responses collected were analyzed and will be used in future revisions to the CHIP, as well as other collaborative health efforts undertaken by the Department.

The meeting closed with two brief slides on next steps in the MAPP process and completing the meeting evaluation. Overall, the meeting lasted approximately one hour and forty-five minutes.

Florida Department of Health in Miami-Dade County Annual CHIP Review Meeting Location: GoToWebinar

Friday, October 30, 2020 10:00 a.m. – 12:00 p.m.

AGENDA

Purpose:

Annual CHIP Review Meeting to monitor implementation of the CHIP, review and assign action items, and recognize practices with improved performance.

Topic	Time	Lead
Welcome/Call to Order	10:00am	Karen Weller
Introductory Statement	10:00-10:05am	Dr. Yesenia Villalta
MAPP Process Briefly review the MAPP process and orient attendees.	10:05-10:13am	Candice Schottenloher
State Revisions September 2020 Discuss recent state feedback and next steps. • CHIP • CHA	10:13-10:20am	Robert Ward
Strategic Priority Area Updates Provide a broad level overview of each strategic priority area. • Health Equity • Total Objectives: 13 • Target Met: 2 • Target On Track: 11 • Target Not Met: 0 • Access to Care • Total Objectives: 32 • Target Met: 14 • Target On Track: 16 • Target Not Met: 2 • Chronic Disease • Total Objectives: 27 • Target Met: 4 • Target On Track: 21 • Target Not Met: 2 • Maternal Child Health • Total Objectives: 15 • Target Met: 4 • Target On Track: 10 • Target Not Met: 1 • Injury, Safety, and Violence • Total Objectives: 20 • Target Met: 3 • Target Not Met: 12 • Communicable Diseases and Emergent Threats • Target Met: 3 • Target Met: 3	10:20-10:35am	Karen Weller

Florida Department of Health in Miami-Dade County Annual CHIP Review Meeting Location: GoToWebinar Friday, October 30, 2020 10:00 a.m. – 12:00 p.m.

AGENDA

Target Not Met: 3		
Success Stories Discuss three objectives that have exceeded expectations. HE 1.1.1/1.1.2 MCH 1.1.1 ISV 1.6.2	10:35-10:50am	Bryanna McDaniel/Candice Schottenloher
Break	10:50-11:00am	All
Targeted Areas for Improvement Discuss three objectives that are not meeting expected benchmarks. • CD 2.1.2 • AC 6.1.2 • CDET 1.5.1	11:00-11:15am	Robert Ward
Objective Deep Dives Highlight one objective from each priority area in greater detail. • HE 4.1.1 • AC 2.1.2 • CD 1.3.2 • MCH 3.1.2 • ISV 4.1.1 • CDET 1.1.1	11:15-11:50am	Valerie Turner
Next Steps Discuss next steps in the CHIP and MAPP cycles.	11:50-11:55am	Robert Ward
Meeting Evaluation Feedback and suggestions for next month/quarter's review.	11:55-12:00pm	Bryanna McDaniel
Adjourn	12:00pm	All

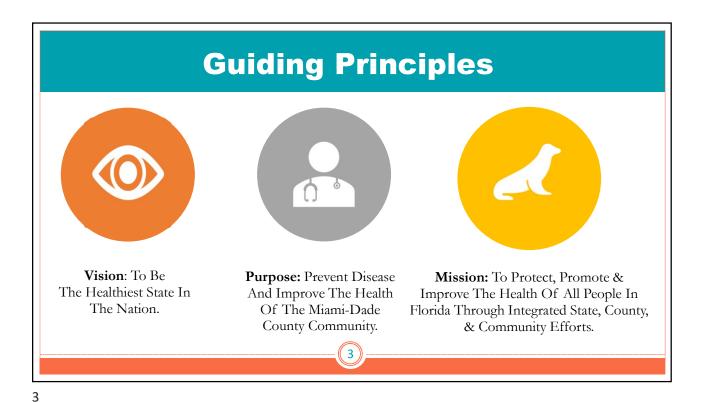

Community Health Improvement Plan Meeting

October 30, 2020

Welcome Message

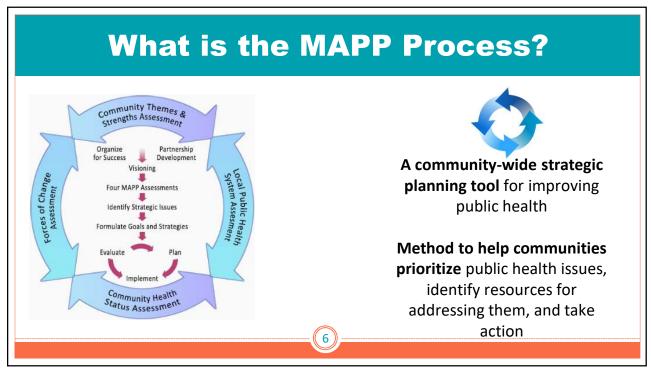

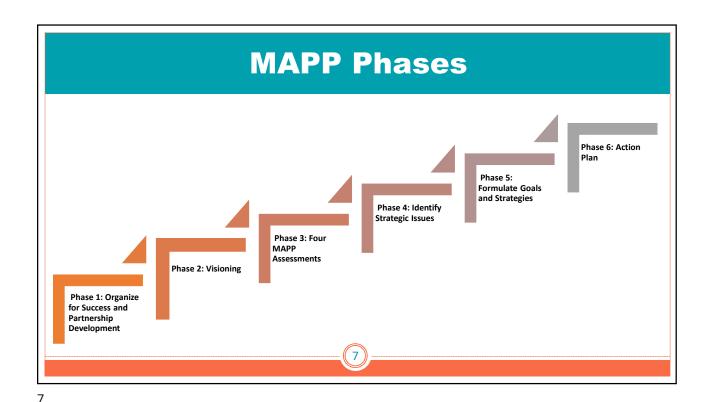

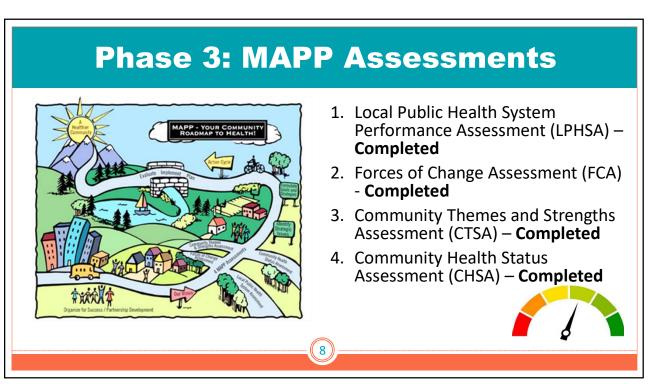

,

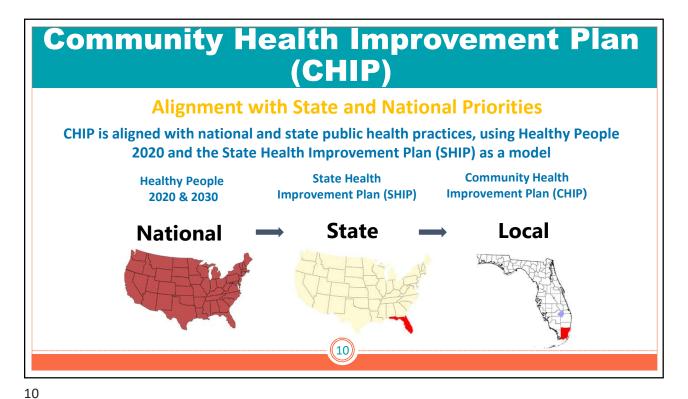

MAPP Process

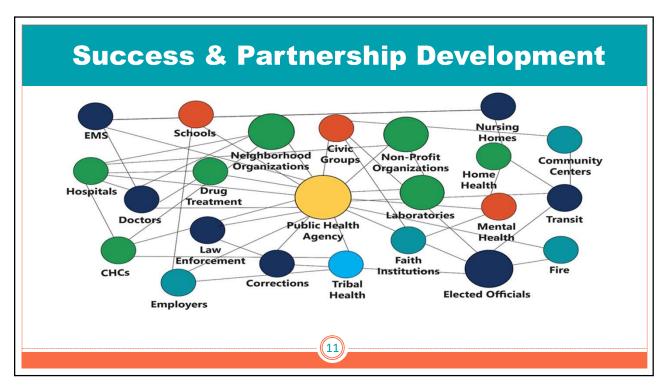

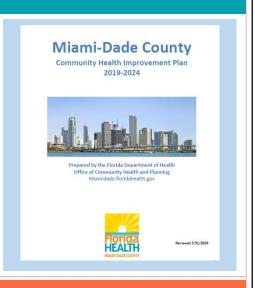

-0

CHIP Revisions

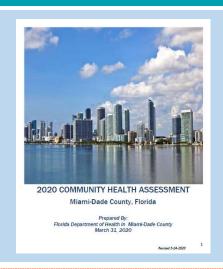

- Revised approximately 50 objectives to be SMART.
- Added needed policy changes to each priority area.
- New chart showing alignment with Healthy People 2030 goals.
- Received a 100% score from the state.

13

13

CHA Revisions

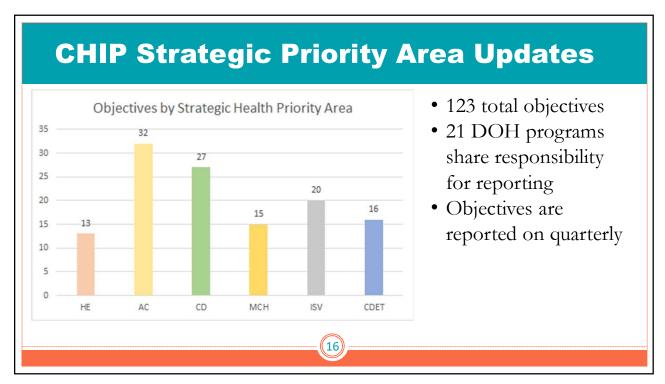

- CHA updates:
 - Added 4 new sections
 - Disparities in Miami-Dade County
 - Local Resources
 - Summary: Community Health Assessment Indicators 2030
 - 10 Essential Public Health Services
 - Added 8 new indicators.
 - Included new chart showing alignment with Healthy People 2030 goals.
 - Received a 100% score from the state.

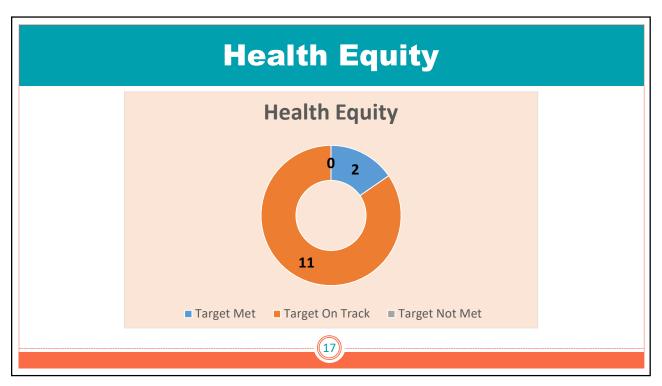

14

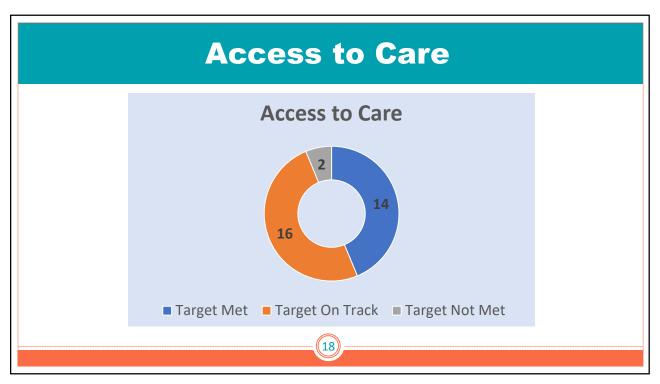

14

CHIP Strategic Priority Area Updates

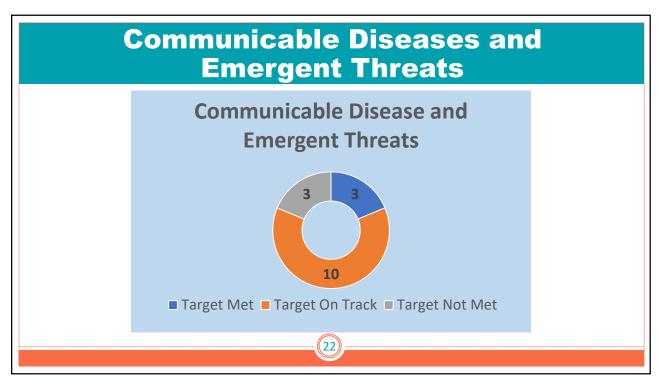

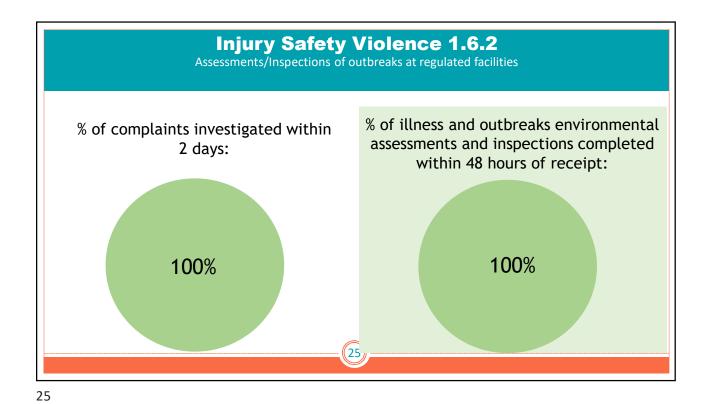

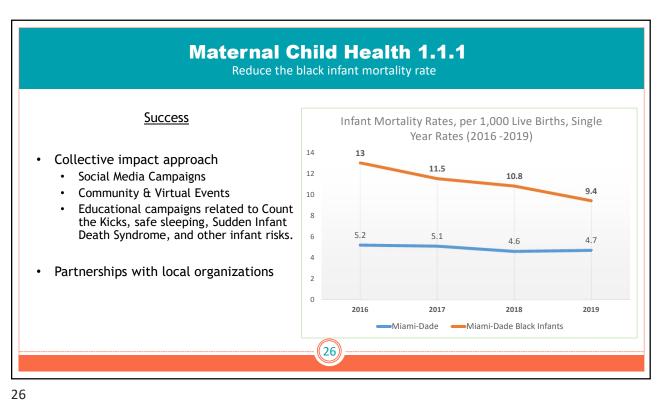

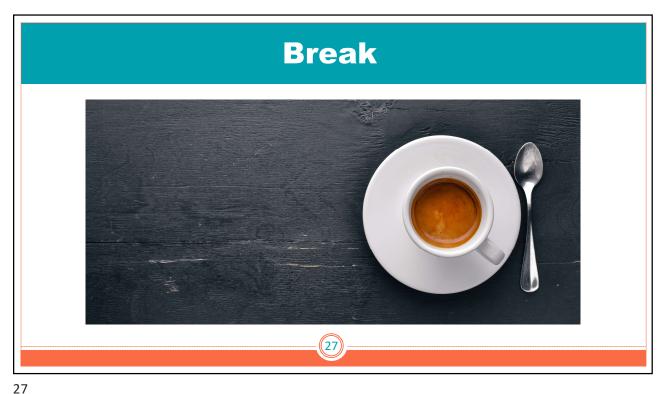

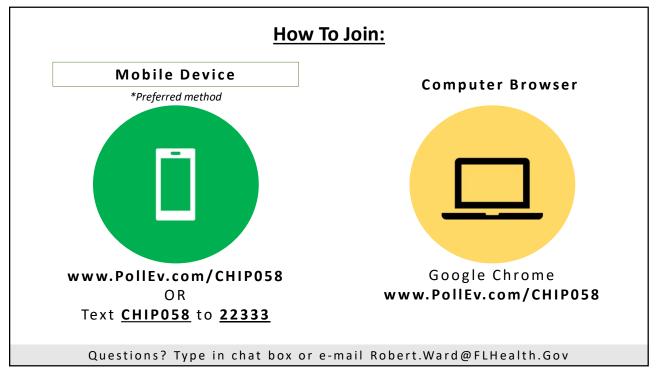

Health Equity 1.1.1 & 1.1.2 Health equity training pre and post knowledge tests Success • Health Equity Training developed. **Health Equity Training** Pre/Post-training knowledge tests were created. # of trainings completed **Health Equity** • 3 trainings have been completed The answer to this question lies in the concept of health # of pre/post-training tests completed • 99 pre-tests have been completed equity. • 99 post-tests have been completed (24)

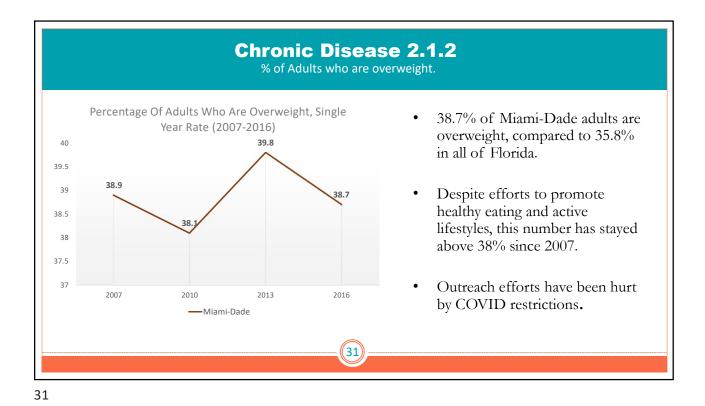

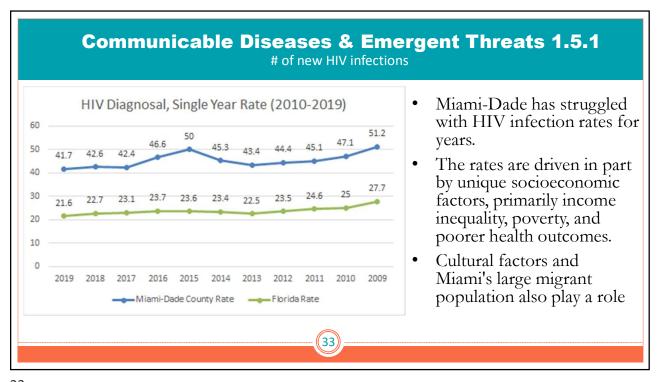

of collaborations to develop policies, systems, and environmental changes.

of policies, systems, and environmental changes developed
Data Source: OCHP P-drive: Consortium; Bior Issues Committees Work Plan & Hoothly Reports

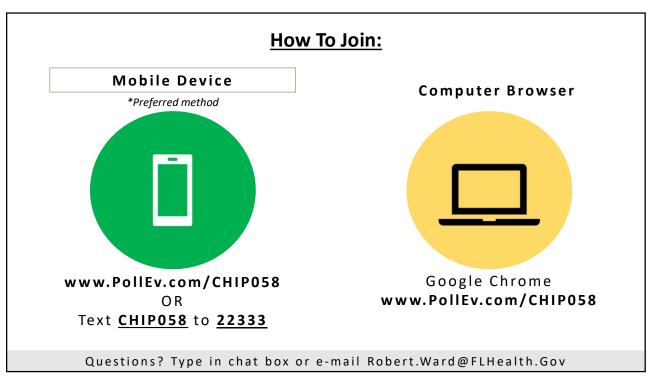

- The number of partners and PSEs related to elder issues lags behind targets.

- Many community partners are transitioning their elder services online.

- Despite this, more work needs to be done to protect the health and social needs of the elder population, especially during COVID-19.

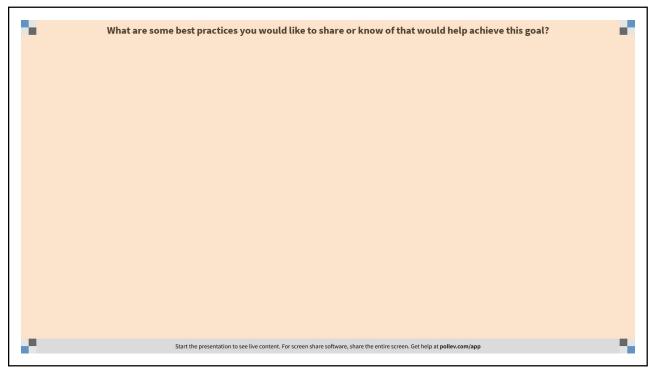

Objective Deep Dives

Health Equity 4.1.1

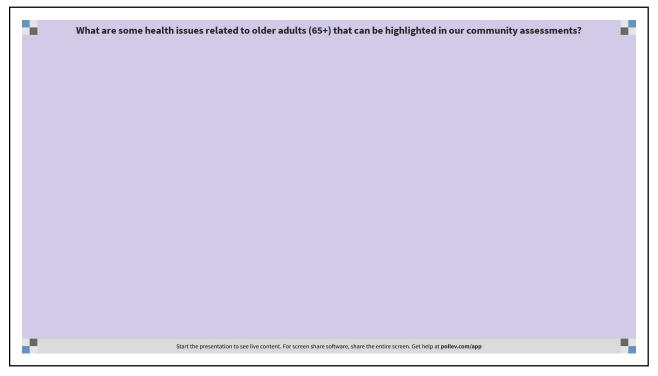

By September 30, 2024 a minimum of two policy, system, or environmental changes will be in place with at least two Miami-Dade County organizations to support shared use paths for all populations with considerations given for modes of transportation, mobility level, and age.

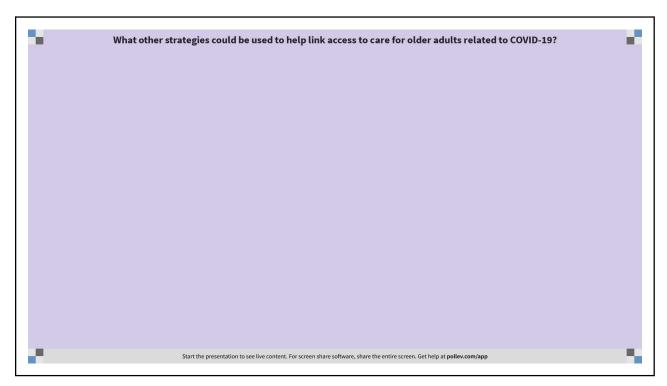

Access To Care 2.1.2

By September 30, 2024, DOH Miami-Dade will strengthen the Community Health Assessment (CHA) to assure it addresses older adults needs aged 65 and above from 7 (2019) to 10.

Chronic Disease 1.3.2

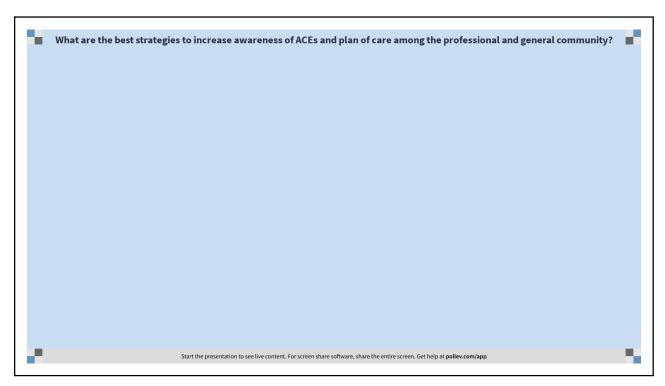

By September 30, 2024, reduce current smoking rates among Miami-Dade adults from 12.3% (2016) to 10.5%.

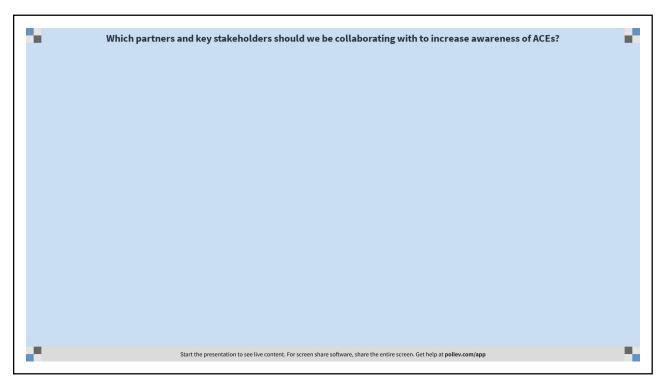

Maternal Child Health 3.1.2

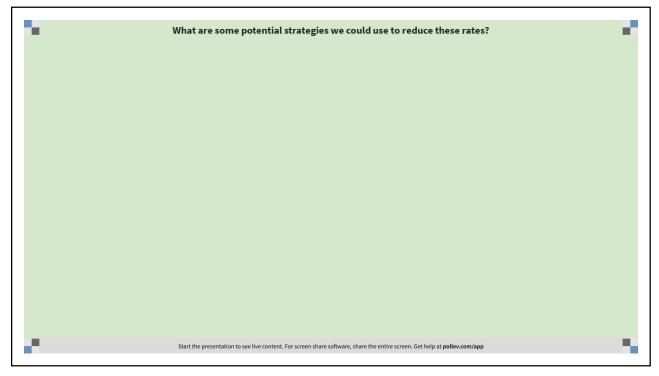

By September 30, 2024 increase number of presentations on Adverse Childhood Experiences (ACEs) and plan of care from 0 to 3.

Injury Safety Violence 4.1.1

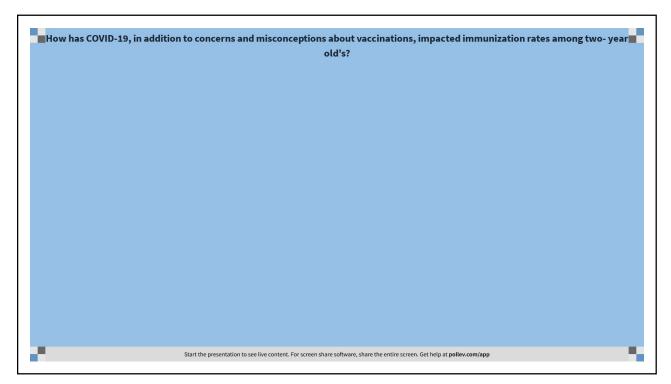

By September 30, 2024, reduce the rate of deaths from all external causes, ages 0-14 among Miami-Dade resident children from 5.08 (2018) per 100,000 to 4.5 per 100,000.

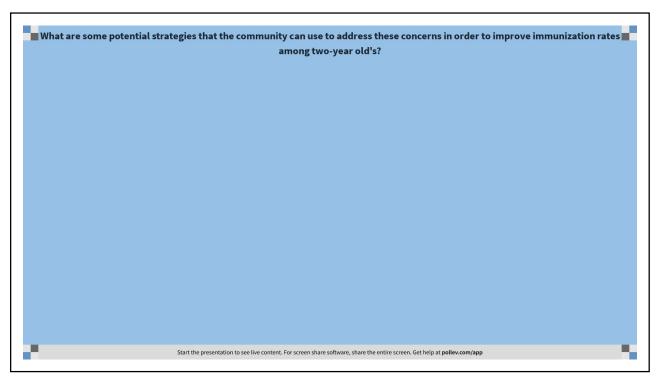

Communicable Diseases & Emergent Threats 1.1.1

CDET 1.1.1 By September 30, 2024, increase the percentage of two-year old's who are fully immunized from 93.1% (2018) to 95% in Miami-Dade.

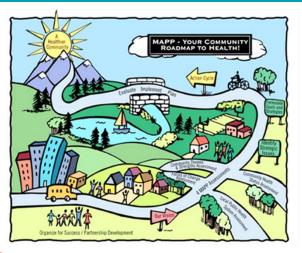

51

Next Steps

- Revised CHIP and the CHIP Annual Progress report due in March 2021.
- The MAPP cycle will renew in 2022.
- MAPP Steering Committee will meet in January 2021.

(54)

Virtual Community Health Improvement Plan Meeting

Deep Dive Activity Results

The Objective Deep Dives activity was the centerpiece of the 2020 Virtual Annual Community Health Improvement Plan Meeting. The activity was designed so the community could directly submit ideas and input on six key objectives from the CHIP during the half-hour segment. Participants submitted their answers using the PollEverywhere software and were able to view the responses in real-time. Dr. Valerie Turner moderated the activity and provided feedback to the audience. The collected responses have been analyzed and will be used in future versions of the CHIP, as well as other collaborative health efforts undertaken by the Department. Please see below for the full responses submitted for each objective.

HE 4.1.1 By September 30, 2024 a minimum of two policy, system, or environmental changes will be in place with at least two Miami-Dade County organizations to support shared use paths for all populations with considerations given for modes of transportation, mobility level, and age.

Which key state and local level organizations and/ or stakeholders do you recommend helping achieve this objective?

1. Employers	20. Health Service Providers
grass root organizations	21. Healthcare systems
3. Local Businesses	22. Urban Health Partnerships
4. Everyone	23. Jackson Health
5. Academia - local vocational programs, colleges and universities	24. Schools
6. Schools	25. DOH
7. Chamber of Commerce	26. Miami-Dade Parks and Recreation
8. Local nonprofits	27. local nonprofits and funders
9. Businesses	28. Miami Dade County Government
10. Government	29. Hospitals
11. Municipalities	30. FQHC, hospitals, primary healthcare providers, insurance providers
12. Religious organization can assist	31. health care systems
13. Insurers	32. Dept of Health,
14. MDCHD, Hospitals, CBOs	33. Miami Dade County Government
15. Free Clinics	34. Hospitals and Healthcare Providers
16. Residential Drug Tpx centers	35. Urban Strategies, Inc.
17. Elected Officials	36. Jessie Trice Community Health Center
18. Local government	37. Department of Health along with community
10. TDO	partners
19. TPO	

Deep Dive Activity Results

HE 4.1.1 By September 30, 2024 a minimum of two policy, system, or environmental changes will be in place with at least two Miami-Dade County organizations to support shared use paths for all populations with considerations given for modes of transportation, mobility level, and age.

What are some best practices you would like to share or know of that would help achieve this goal?

1.	Health in All Policies	20.	Complete Streets program.
2.	Health impact assessment	21.	Successful local case studies
3.	Human Impact Partners Guide in Equity and	22.	Collective Impact models
Hea	lth		
4.	"Maste" action planning encompassing multiple	23.	Community campaigns and outreach
key	orgs (external)		
5.	Determining ROI for community and corporate	24.	Attending community meetings, partnering
part	ners and why they should engage in this work		
6.	There's already a lot happening, better reporting,	25.	Outreach
trac	king so that it is reflected in plan		
7.	Health impact assessment data	26.	Review of internal institutional practices
8.	Partnering to develop community-based research	27.	Evidence-based practices like Active Design
9.	Engaging the community members that are	28.	Share data
dire	ctly impacted versus attempting to determine what		
it is	from the top-down		
10.	Walk safe program	29.	Leadership development across stakeholder orgs.
11.	Holding all involved accountable	30.	Engagement & Outreach
12.	Gov. School community health worked	31.	Share with other the expectations to work together
13.	People Centered Care Model	32.	Open dialogue platforms

Deep Dive Activity Results

14. commitment	33. Workforce Development
15. SWOT	34. Engaging the community to help make the changes
16. Engaging all partners	35. Mentorship
17. Education	36. Gov. school
18. outreach, peers, community health workers	37. Peer Support
19. Collective impact approaches	

AC 2.1.2 By September 30, 2024, DOH Miami-Dade will strengthen the Community Health Assessment (CHA) to assure it addresses older adults needs aged 65 and above from 7 (2019) to 10.

What are some health issues related to older adults (65+) that can be highlighted in our community assessments?

1.	Family education	32. Sub-data and analysis focus of OA population across other key Indicators
2.	Familial supports	33. Continuity of care
3.	ageism	34. Safe accessible routes from home to healthcare
4.	Family education	35. poverty
5.	Affordable housing	36. Isolation (it is important beyond COVID, too)
Volunteer program		37. homelessness
	Holistic evaluations (health, functional, mental ily, medical regular evaluation) and integration of imunity resources and prioritized their needs	38. Fall prevention
7.	Army of caregivers	39. Programming
8.	High Cost of assisted care	40. Mental health issues and wellness

Deep Dive Activity Results

9. Volunteer program	41. More empathy with this population and their needs.
10. Brain health	42. Dementia and Alzheimer
11. Connectivity - both in-person and virtually with friends, family, etc.	43. Transportation
12. Access to technology	44. COVID
13. limited retirement money	45. Affordable housing
14. Digital decide - barrier to knowing, learning. Engaging	46. Nutrition
15. Considering OA in all policies	47. Heart disease
16. Alzheimer loneliness chronic disease transportation nutrition mental health	48. Technology assistance
17. Affordable housing (on fixed income)	49. Transportation
18. Technology assistance	50. Mental Health

AC 2.1.2 By September 30, 2024, DOH Miami-Dade will strengthen the Community Health Assessment (CHA) to assure it addresses older adults needs aged 65 and above from 7 (2019) to 10.

What other strategies could be used to help link access to care for older adults related to COVID-19?

1.	Marketing Campaigns - traditional media efforts	19.	Traditional media messages like tv and radio
with	stories in the news, daytime TV, etc.		
2.	211	20.	Use media to inform the community
3.	Visits to the community per zones to identify	21.	Media/news
nee	ds, strengths and barriers, in order to identify areas		
of support and help

health outcomes		
18. Use of volunte	eers.	

Deep Dive Activity Results

AC 2.1.2 By September 30, 2024, DOH Miami-Dade will strengthen the Community Health Assessment (CHA) to assure it addresses older adults needs aged 65 and above from 7 (2019) to 10.

What social connections are available for older adults in Miami-Dade?

Misinformation about cessation tools (ex. E-cigarettes)	28. Many Miami-Dade County municipalities and the County itself have affordable senior house (albeit not
	enough) but there should be more information sharing
	in these communities
2. Online craft events	29. Senior centers
3. Healthcare systems themselves can provide	30. Older adult advocacy groups
opportunities to volunteer, be engaged as well as serve	
as a center for information on various community-based	
programs	
4. Online craft events	31. Increase Internet access
5. Consistent connections	32. Caregivers.com
6. Faith based organization	33. Parks and rec
7. MD college classes	34. Adult recreational centers
8. Rotary Clubs	35. Companion/ home are nursing agencies
9. Citrus Health	36. Lifelong learning programs
10. Alliance for Aging	37. Virtual Support Groups
11. Casual coffee or game gatherings	38. Senior Groups or programs with Parks.
12. Elks Lodge & Moose Centers	39. Parks (after Covid)
13. United Way	40. JCS community calendar of events like exercise
	classes
14. Veteran organizations.	41. Grocery stores
15. Walking groups	42. Faith-based organizations
16. Large employers to share information with older	43. Corner stores
adults families - sharing with children or grandchildren	
17. Congregates meal sites	44. Arts program (free passes"
18. Adult recreational centers	45. Social interaction through church, charities and
	volunteer organizations
19. Independent Livings. ILS	46. during covid, online groups
20. Utilizing insurers and their services (i.e. nurse care	47. LIFT Centers, municipal Senior Centers, YMCAs,
coordination, social work, etc.) to highlight various	religious groups
programs for vulnerable seniors	40. Eldovo of opine
21. Promote "front porch" events (ii.e. come outside at 6 pm each Friday.	48. Elders of aging
22. Volunteer organizations that have people visit	49. Adult daycare
elderly residents	43. Addit daycare
23. Adult day care religious group senior group adult	50. WhatSApp
recreation center	
24. Agency for person with disabilities. Long Term care	51. Adult day cares
25. Social service volunteer organizations	52. Adult day cares
26. Volunteer opportunities	53. Update homes for them to age in place or in their home
27. Congregate meal sites	

Deep Dive Activity Results

CD 1.3.2 By September 30, 2024, reduce current smoking rates among Miami-Dade adults from 12.3% (2016) to 10.5%.

What are some barriers that are preventing the community from achieving this goal?

1. I	Increased media	19. Little orientation
2. 7	Targeting children with e-cigarettes	20. Fear of failure
3. I	Inaccurate information about risks/safety of	21. Vaping has become a problem.
vaping		
4. l	Use media to education	22. Introduction of "alternatives" to smoking that are
		likely just as dangerous as tobacco themselves
5. N	Misconception that vaping is a safer option to	23. Awareness/cultural
smokii	ng.	
6. (Challenges doing exercise: physical distancing,	24. Language barriers to seek for help
fitness	s coaches too expensive, lack of knowledge about	
impact	t of doing exercise on smoking prevention.	
7.	Social perceptions (ex. Movies and video games	25. E-cigarettes
make i	it look cool)	
8. <i>A</i>	Accessibility	26. Stress
9. <i>A</i>	Agreement of retailers to limit access	27. Tobacco advertising targeting poor populations and
		children
10. A	vailability of targeted cessation programs	28. Economic problems
11. G	enerations of normalizing the behavior in certain	29. Cost of Treatment
culture	es	
12. Ea	asy access to cigarettes/ cigarettes are to chipped	30. Lack of motivation
13. Fa	amily and generational habits of smoking	31. Advertisements by tobacco companies
14. n	ot having support from those around them	32. Addiction
15. N	lot knowing where or how to access treatment	33. continued social pressures

Deep Dive Activity Results

16. More group supports	34. stress
17. need constant media to counterbalance tobacco	35. Stress and uncertainty of pandemic times
ads	
18. Again	36. Stressors

CD 1.3.2 By September 30, 2024, reduce current smoking rates among Miami-Dade adults from 12.3% (2016) to 10.5%.

What are some current and future opportunities that can help us achieve this goal?

1.	Trainings	19. Breathe Easy spaces
2.	Smoking breaks affects the production and	20. working with schools
perf	formance within working hours.	
3.	Less secondhand smoke will benefit all residents	21. Informing people of how tobacco can drastically
and	the environment/beaches (less litter)	worsen chronic diseases (i.e. diabetes, heart disease,
		etc.)
4.	State policy changes/legislation	22. Education about the damage tobacco product
5.	More media involvement	23. educating our community
6.	Education on the different pathways for smoking	24. Work with schools and children on education
cessation, what to expect during the process and		
sup	port.	
7.	Role models	25. Tiered incentives to those enrolled in cessation
		programs
8.	Lease benefits for not smoking	26. Community support & advocacy for smoke-free
		environments/policies
9.	Choice priorities about health to economic	27. Implementing local tobacco polices/ordinances
10.	Working with employers to promote tobacco	28. Working with elected officials to propose new
cess	sation and resources	legislation

Deep Dive Activity Results

11. Working with insurers and employers on programs, policies, incentives, engagement, education, Breathe	29. time consuming vs be working or sharing with loved ones
Easy spaces, etc.	
12. Sharing the financial benefits of staying tobacco/smoke free	30. Support Groups
13. More advertisements to inform about free Tobacco Quit Your Way	31. Continual education.
14. Negative impact of the time that take smoking vs	32. Financial support to the organizations doing the
doing something useful and beneficial	cessation programs
15. Increasing tobacco free places	33. use of social media to spread information and
	resources
16. Policies around retailing especially for the youth.	34. Tobacco retailer license
17. Multi-unit housing	35. Incentive programs
18. Incentive programs e.g. awards given in schools	

MCH 3.1.2 By September 30, 2024 increase number of presentations on Adverse Childhood Experiences (ACEs) and plan of care from 0 to 3.

What are the best strategies to increase awareness of ACEs and plan of care among the professional and general community?

1.	Municipalities and local government	15. Home visits by health professionals
2.	Insurers	16. Including it in the MDPS culture
3.	Partner with foundations to fund partners to work	17. Add these topics in school curriculum.
on A	ACEs	
4.	Faith-based organizations	18. Sesame Street in Communities is coming to Miami-
		Dade - and has a component to address ACEs

Deep Dive Activity Results

5.	The best implement we had is community	19. Integration into primary care
6.	Help to identify available resources	20. Empower mothers to share their stories
7.	'@CEO level, seek to get a commitment to build	21. Media
into	priorities and dev staff	
8.	Parenting classes	22. Educate providers, schools, parents
9.	https://sesamestreetincommunities.org/	23. Conferences
10.	Integration in to WIC and other early childhood	24. Reach out to colleges and universities
prog	grams	
11.	Early learning centers	25. Trainings
12.	Work with providers to implement ACEs into	26. trainings - with CEUs
prac	etice	
13.	Implementing workforce training(s) so employees	27. Webinars
are	informed of ACEs	
14.	Community organization work together	28. Parent Cafes

MCH 3.1.2 By September 30, 2024 increase number of presentations on Adverse Childhood Experiences (ACEs) and plan of care from 0 to 3.

Which partners and key stakeholders should we be collaborating with to increase awareness of ACEs?

1. plar	Incorporate into Place based initiatives action	26. Non profits
2.	Corporate retailers like Target, Walmart	27. Parks
3.	Childrens of inmates	28. Center for Community Resilience, George Washington University
4.	homeless trust	29. Parks and rec centers

ISV 4.1.1 By September 30, 2024, reduce the rate of deaths from all external causes, ages 0-14 among Miami-Dade resident children from 5.08 (2018) per 100,000 to 4.5 per 100,000.

The top 4 leading causes of unintentional injury death for children aged 5-14 years old are motor vehicle traffic crashes, drowning, falls, and fire (flame). What are some potential strategies we could use to reduce these rates?

		T	
1.	Raise awareness about the danger of bullying	16. Promote educational and awareness campaigns to	
		prevent these injuries	
2.	Incorporate into disaster planning	17. Respecting pedestrians	
3.	Stop drop roll	18. Fall prevention environmental inventory	
4.	Educating elected officials of these issues to	19. Educating harms through large media outlets	
	ite better policies		
5.	Education in prison	20. Car Seat check-up events with certified Child	
		Passenger Safety Technicians	
6.	Increased media campaigns	21. Change inspection policies regarding existing home	
		purchases to ensure that pools have safety barriers at	
		the time of purchase	
7.	Fire safety is not discussed as often anymore,	22. Promote the use car seats and swimming courses	
eve	n in schools		
8.	Volunteer community service projects with	23. Child abuse prevention	
non	profits to increase protective factors and decrease		
risk factors

Deep Dive Activity Results

CDET 1.1.1 By September 30, 2024, increase the percentage of two-year old's who are fully immunized from 93.1% (2018) to 95% in Miami-Dade.

How has COVID-19, in addition to concerns and misconceptions about vaccinations, impacted immunization rates among two- year old's?

1.	School nurses can give vaccines	12. Promote literature
2.	More vaccines everywhere	13. Concerns around safety of physician offices to
		going to get vaccine due to risk of COVID
3.	Vaccine accessibility	14. School supporters
4.	Need "off-hour" availability of vaccines - evening	15. Build trust
and	weekend hours	
5.	Cost involved	16. Fear of getting infected with COVID-19 going to
		health centers because
6.	All government institutions work together	17. Less well visits
7.	No trust	18. This is difficult! Latinx and blacks across all SES
		have misconceptions
8.	Build trust in their development and impact	19. There has been an increase in false info, more need
		to #factcheck
9.	services during COVID are by appointment	20. Use the media for information
only	yneed walk in services	
10.	Need to get the facts out. To much misconception.	21. Marketing campaign on vaccine safety and
		addressing the anti-vaxxer messages
11. Explain the vaccination process		

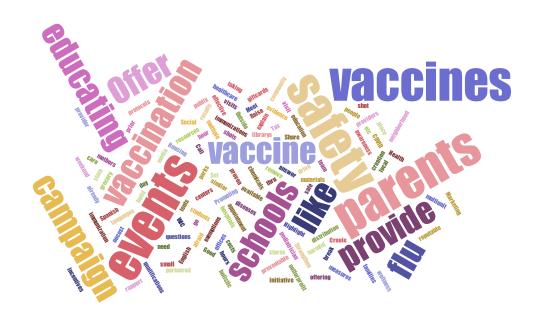

Deep Dive Activity Results

CDET 1.1.1 By September 30, 2024, increase the percentage of two-year old's who are fully immunized from 93.1% (2018) to 95% in Miami-Dade.

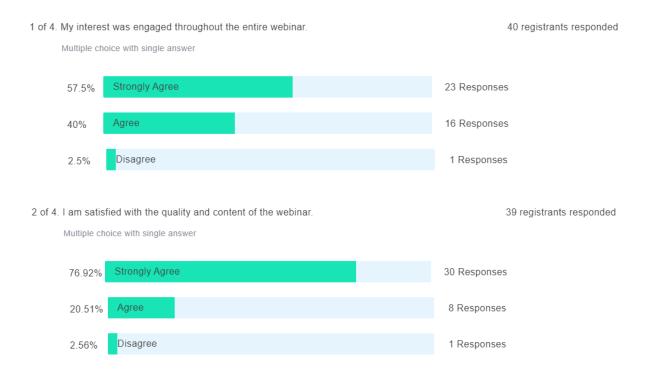

What are some potential strategies that the community can use to address these concerns in order to improve immunization rates among two-year old's?

1.	At multiunit Housing	14. provide incentives to parents
2.	Good distribution of the resources in the state	15. Meet them where the families already are -
		schools, day care centers, etc
3.	Have education materials available in multiple	16. Set up vaccine tents at parks
languages (English, Spanish and Creole)		
4.	Vaccination events at library's	17. schools educating students and parents
5.	Call mothers prior to the appointment to build	18. More community immunization events
rapp	oort, answer questions, explain COVID safety	
mea	sures	
6.	Promoting the need for the creation of holistic	19. Offer "small" giftcards like publix is offering for flu
vacc	ines, vaccines that remove some of the harmful	shots
cher	micals that people are afraid of	
7.	Strengthen exemptions	20. more off hour and weekend hours
8.	Raise awareness of safety protocols , it IS safe to	21. providers educating parents
go t	o the pediatrician	
9.	Tax break	22. WIC qualifications
10.	Highlight no-cost wellness visits and vaccination	23. Marketing campaign on safety of healthcare
cost	S	provider offices - local not-for-profit hospitals have
		partnered on an initiative similar to this
11.	Provide Outside grocery stores	24. Social media campaign.
12.	Share reputable evidence and results that	25. Offer drive thru vaccines like flu shot events that
imm	nunizations are proven and effective against vaccine	are taking place
preventable diseases		
13. Health team visit the neighborhood		

Friday, Oct 30, 2020 08:58 AM EDT - 11:44 AM EDT Evaluation Report

At the conclusion of the event, the GoToMeeting software redirected attendees to a two question survey. The questions were designed to solicit constructive feedback on both the content of the event, as well as staff performance. The responses to both questions are included below.

What portion(s) of the webinar did you like the best or find most valuable? Why?

- 1. Interactive polls/surveys
- 2. I found the entire session valuable.
 I found that the session was long enough. I'm unsure I could have handled a longer interaction.
- 3. Interactive questions & responses kept participants engaged.
- 4. It was all very informative. I definitely liked to collaborative portion although I was having trouble participating.
- 5. N/A
- 6. The updates and the discussion using the Poll Everywhere software. ,The discussion activity.
- 7. All aspects of the meeting agenda were very engaging
- 8. The interaction between the participants about the resources needed to improve health outcomes in the community
- 9. The fact that Health Equity was added to the plan review and presentation. Systemic equality discussions are taking place worldwide at this time and it is nice to see our county taking an interest in addressing this very relevant issue.

Friday, Oct 30, 2020 08:58 AM EDT - 11:44 AM EDT Evaluation Report

- 10. Wisdom sharing because we all contributed to provide our opinion about possible solutions
- 11. Providing feedback via Poll Everywhere, the process was seamless.
- 12. Poll Everywhere activity
- 13. Interactive portion with audience input and suggestions.
- 14. The interactive component.
- 15. Everything
- 16. Structure excellent, with just the right amount of reminder/setup and specific verbal cues when we were going to the next session or next objective. Pace of speaking/content excellent, and I'm appreciative of that as too many Zoom meetings and webinars seem to drag. The portion dedicated to receiving feedback was very well done; even through we were remote, it felt live and dynamic, and the pace was perfect/engaging (and the facilitator should be congratulated for brining that!)
- 17. The achievements per area
- 18. Overview of Data Indicators and Performance
- 19. The polling deep dive of objectives
- 20. all topic was very good
- 21. I loved that the meeting was virtual, a great way in capturing the very needed feedback precisely and seamlessly!
- 22. Very interactive session
- 23. The Deep Dive was very helpful and engaging. The introduction about the progress with certain CHIP indicators and strategic priorities was helpful as well.
- 24. Portion on the elderly!
- 25. The entire presentation was valuable. Interaction with the questions
- 26. Overall the Webinar was valuable.
- 27. The Poll section was very interactive and can see how others responded.
- 28. I appreciate the interactive nature of this webinar and the ability to see the responses in real time.
- 29. The information presented was useful and well presented, great work to you team!
- 30. community questions

Friday, Oct 30, 2020 08:58 AM EDT - 11:44 AM EDT Evaluation Report

What portion(s) of the webinar did you like the least or find least valuable? Why?

- 1. During the interaction, the question that appeared referred to a 'goal' that was not visible on the screen. Although, Valerie did an excellent job facilitating, I found myself providing answers to the key words she was stating or those posted on the screen rather than from the goal itself.
- 2. I was hoping for more fleshing out on the actual objectives and progress rather than the poll everywhere sharing opportunities.
- 3. Description of why the goals were identified and how to address them seemed to pass very quickly. Would have liked more time to review and discuss.
- 4. N/A
- 5. The interactive portion was engaging and interesting.
- 6. N/A,N/A
- 7. None
- 8. N/A
- 9. All the content presented was valuable.
- 10. Using abbreviations -- it would be good to include the meaning of abbreviations in the bottom of the slides, for those whom are not familiar with them.
- 11. N/A
- 12. N/A
- 13. N/A
- 14. Not Applicable.
- 15. everything
- 16. N/A. I wouldn't change a thing.
- 17. everything was very organized as usual
- 18. n/a
- 19. all of them they are important
- 20. N/A it was amazingly great!!!!!:)
- 21. N/A (Great job!) I do wish the different organizations present during today's virtual meeting were shared with attendees. That would be helpful in the future to know who is at the table and which organizations are missing. Thanks.
- 22. I found it all very valuable
- 23. N/A

Friday, Oct 30, 2020 08:58 AM EDT - 11:44 AM EDT Evaluation Report

- 24. None.
- 25. Couldn't see anyone else, sometimes this is isolating.
- 26. More interaction would make this meeting more engaging
- 27. there should have been less time allotted for the break.
- 28. N/A

The following three pages contain the Save-the-Date promotion flyer and press release used to promote the event. Both materials were distributed to key community partners, local municipalities, and Florida Department of Health in Miami-Dade County (DOH-MDC) employees. In total, the estimated distribution reach of the materials was over 400 community organizations, more than 34 municipalities, and over 1000 DOH-MDC employees.

Florida Department of Health in Miami-Dade County Announces 2020 Virtual Community Health Improvement Plan Annual Meeting

Contact:

Communications Office 786-336-1276

MIAMI, FL. – The Florida Department of Health in Miami-Dade County is pleased to announce it will be hosting the 2020 Virtual Community Health Improvement Plan (CHIP) Annual Meeting to share overall updates on all strategic health priority areas part of the Miami-Dade Community Health Improvement Plan. The purpose of the Community Meeting is designed to bring a diverse mix of public health professionals, community members, state and local health officials and community organizations so they can take a collaborative approach to prioritizing and addressing the needs of the community through the development of strategies and interventions. The Community Meeting will take place on Friday, October 30th, 2020 from 10:00 a.m. - 12:00 p.m. virtually via the GoToMeeting platform.

The Community Health Improvement Plan (CHIP) is Miami-Dade County's five-year collaborative plan from 2019-2024 for developing policies and defining actions to target efforts that promote health. The CHIP is the local plan that examines the activities of our public health network and how they contribute to community health improvement that address the most important issues facing the community. The six strategic health priority areas identified from the last Community Meeting for the CHIP include: Health Equity, Access to Care, Chronic Disease, Maternal Child Health, Injury/Safety/Violence, and Communicable Diseases and Emerging Threats.

The Community Meeting is designed to provide high-level, dynamic sessions that address the strategic public health priorities such as increasing access to resources to promote healthy behaviors, preventing and controlling infectious diseases, improving access to primary care services, eliminating health disparities, and promoting an efficient and effective public health system that maximizes partnerships and uses information technology to improve health care outcomes. Community members will have the opportunity to discuss the status of the strategic public health priorities impacting health and wellness in Miami-Dade County, and evaluate the strategies and actions that address public health issues and opportunities in innovative ways.

Event: 2020 Virtual Community Health Improvement Plan Annual Meeting

Location: GoToWebinar Platform **Date:** Friday, October 30th, 2020 **Time:** 10:00 a.m. - 12:00 p.m.
